

Confédération Européenne de l'Immobilier

The European Confederation of Real Estate Agents

WELCOME

CEI is an organization of more than 66.000 real estate agents and real estate consultants in Europe and represents their interests on the European level. CEI has allowed the real estate market in Europe to become more close-knit. Our multi-language real estate database since the beginning of 2000 has helped drive this process. We understand our association to be an organization that provides more transparency in the European real estate market. Moreover CEI encourages the cooperation in European matters.

STANDARDIZATION OF REAL ESTATE SERVICE

CEI has initiated the standardization of real estate agents' services in Europe. We have prepared the homogenization of real estate agents services in Europe based on comprehensive intra-organization negotiations and negotiations with the European Committee for Standardization CEN. The European Committee for Standardization CEN has initiated the proceedings in which a total of 31 European countries have been taking part since November 2005. The process has been completed in 2009. The standard is published in all member countries of CEI since 2010 as EN 15733. This is a huge project which has a major impact on inter-European real estate acquisitions.
